CONDUCT PROCESS & PROCEDURES

Housing staff members are expected to report any event that occurs in the university housing communities. An incident report is a written account of an event or situation by the person who has the earliest and most direct involvement with the incident. Charges of the Student Honor Code and Student Conduct Code or Community Standards violations originating from an incident report are considered alleged pending completion of the student conduct process. Any member of the housing community and university community can report behavior that is inconsistent with the Community Standards. If the alleged misconduct occurs in or around a residence hall, or apartment complexes complaints should be brought to the Area Coordinator, Residence Director, or other Housing staff member.

All student conduct procedures are designed to minimize disruption to the housing community. When an incident takes place, the following conduct protocol occurs until the case is concluded with the final decision.

If a formal complaint is lodged against a student, usually through an incident report, a student conduct administrator is assigned to consider charges against the student. A student conduct administrator will be assigned according to the severity of the situation, previous conduct record, and the residence community where the violation occurred. The Student Conduct Administrator may be a Graduate Community Coordinator, Area Coordinator, Residence Director, or the Associate Director of Housing for Conduct and Community Standards. In some situations, a case may be handled by the Office of Student Conduct and Conflict Resolution.

The Department of Housing and Residence Life strives to create a positive learning environment where residents treat one another with respect and conduct themselves responsibly, consistent with the Community Standards. To promote this environment, the Department of Housing and Residence Life will administer an equitable and judicious conduct process grounded in education, ethical decision-making and community responsibility.

**NOTE:** In certain circumstances, a student may be removed from housing before a student conduct meeting has been held or following a hearing where removal was imposed and an appeal is pending. An interim removal is imposed to ensure the health, safety, or well-being of members of the residence hall/apartment community or to preserve property.
